

## Centre for Career Counseling

A great initiative taken by Director-Principal of Pratap Public School and decided on first World Psychology Day to open a specialized career counseling cell at minimized cost for the students and they get 100 percent authentic results without judgment of the others. The world's best tests are available in Main Branch for career counseling.

Our vision is Holistic Well Being of each student. Each child is treated as unique, having specific needs; and assistance is provided on the basis of recognising these individual differences. The services at the Counseling Center are focused at guiding the student towards self-empowerment at intellectual, emotional, behavioral and social levels in their life. The students are helped in making wise choices, plans, interpretations, and adjustments.

TEST	Source	AGE	APPLICATION	DURATION
<b>Intelligence Test</b>	Elsevier Science B.V., Amsterdam. All rights reserved.	6-15 Years	To measure Intelligent quotient , to identify learning disability and to identify cognitive problems (e.g. memory ,attention, concentration, perception etc.)	2:30 Hour

<b>Learning Style</b>	Office of Institutional Advancement Odessa, Texas , USA	6-18	It can empower students to be more effective and independent learners   Students can work using their strengths but also strengthen their weakest areas	30 Mintes

## Appointments for Test and Assessment

1. Students requiring a detailed assessment and evaluation are called again on a suitable day (usually if one is seen on a Monday for example, he/she will be called again on a Monday to meet the same).
2. During the comprehensive assessment, depending on the number of assessments and your time of arrival, please expect a waiting time of at least half an hour to one hour at the least.
