

# PRATAP PUBLIC SCHOOL KARNAL

Circular No. - 01

16.03.2023

"It is often the small steps, not the giant leaps that bring about the most lasting change."

Dear Parents

It gives us tremendous sense of fulfilment and gratification at the culmination of yet another successful session.

And now it's time for your child to embark on another exciting academic journey.

The new session will hold infinite promises and possibilities for students to have new experiences, achieve new milestones and scale new heights.

But for this to happen, it is important that parents stay involved in their child's education on daily basis. Let's together not only rededicate ourselves to the school motto "Higher! Stronger! Brighter!" but also be ready to physically and mentally accommodate new challenges and realities.

One such reality is the scorching hot summer months. The sweltering weather during these months potentially reduces the learning output. Therefore, to facilitate a more conducive learning environment for the students, the school this year has been upgraded to a FULLY AIR-CONDITIONED campus.

Also, to keep up with the rapidly changing educational landscape, and to cater to the enhanced academic needs of the students, the school has planned special IN-SCHOOL COMPETITION EXAM PREPARATION for IIT-JEE, NEET & CUET for the students of class XI. These competition classes will be provided by highly accomplished and experienced faculty.

We are also excited to announce our continued collaboration with Words Worth English Language System, an interactive and engaging program especially designed for classes III to IX to help children improve their English language skills. The students will be provided with special Words Worth workbook, and mobile friendly home access, along with a digital library, which includes over 150 books, storytelling by professional storytellers and more than 5,000 words in Vocabulary Builder. Words Worth is a perfect platform for providing students with innovative learning experience.

There will, no doubt, be many challenges this year as well. However, together we can turn them into fine opportunities and avenues of learning for our children.

Therefore, I solicit your continued support and wholehearted cooperation in our endeavours to provide your child the best opportunities to evolve and grow.

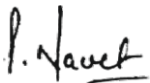

I would also like to draw your attention to the following points:

1. The school timings from 22nd March 2023 will be 7:50 am to 1:50pm. PUNCTUALITY being the hallmark of Pratapians, students are expected to REACH the school ON TIME and respect all deadlines.
2. All students are required to maintain minimum 90% attendance every month. Failure to do so will be deemed as breach of School Code of Conduct.
3. Mobile Phones and Smart watches are a BIG NO on the school campus. Breach of the rule will invite HEAVY PENALTIES.
4. Acceding to the repeated requests of the parents, from this year the girls of classes IX to XII will have the option to wear White Shirt and Blue Pants; nevertheless, if comfortable they also have the option to wear White Salwar with White and Blue Striped Shirt (Kameez).
5. All personal belongings of your child should be labelled so that they may be returned if lost or misplaced.
5. Ensure that the child packs the school bag only with the books and notebooks required for the day to keep the school bag light.
6. The school buses will be plying on regular routes, and interested students can contact the school office for the bus facility.

**To get familiarised with the school rules and regulations, it is important that parents read out the School Almanac along with the child.**

Please feel free to share any feedback/suggestions that you might have.  
Looking forward to your continued cooperation and support!

Yours sincerely

Poonam Navet  
Director – Principal
